Features & Infographic of Love Bali Application
LOVE BALI
WEBSITE

On the Love Bali website, there is various information about Bali. Travelers spot or a cultural event. And the most important menu, which is the Self Registration menu for travelers, you just have to fill it in! Travelers can also contribute so that Bali tourism can rise again after a long slump during the pandemic. This website can be opened via a computer or laptop, enter the link:

https://lovebali.baliprov.go.id/

ANDROID APPLICATION
LOVE BALI

Love Bali application also exists in the form of an application that can be downloaded and installed on travelers' android phones. So it is easier for travelers when they want to scan QR Codes at tourist attractions (without the need to login to the website / open email again). Travelers can also see travel history, which tourist attractions have been visited while in Bali (remember to scan the QR code, okay). Just open the Playstore >> then in the search field enter the keyword: "Love Bali".

LOVE BALI APPLICATION FOR IOS

For travelers who use IOS gadgets, there is no need to worry. Because this application is also built for IOS devices, even the appearance and features are exactly the same as the android application Love Bali. Just open the AppStore >> in the search field, enter the keyword "Love Bali" (no additional words), the real application only uses the word "Love Bali". LOVE BALI.

AUGMENTED REALITY JOYFUL OF BALI APPLICATION

This application will display information on several tourist attractions in Bali in the form of a 3D virtual tour. The 3D design that is made very similar to the original condition. The application is also interactive, because the user can determine for himself the direction in the virtual tour. Users only need to scan the photos of the attractions provided, then the virtual tour and tourist attraction information will appear. This application can be downloaded and installed on mobile phones (android/iOS).

Tourist Attraction Condition from 3D Virtual Reality

When you arrive at the airport, just install the AR Joyful of Bali application. Mark tourist attractions that are already in the application, will be placed in several corners of the airport, making it easy to scan. Then, you'll enjoy it!

QR Code Scanning in Tourist Attraction

There are many interesting tourist destinations in Bali. Remember to prepare a QR Code first, for data collection so that it can be scanned by officers.

Data Collection Via Mobile Application

Self-registration with the android / IOS application is faster, you know... all information and complaints can also be directly done by travelers. The QR code is also easier to access and doesn’t have to be complicated to open emails, etc. So, don’t forget to install it!

QR Code Scanning in Hotel

Immediately after arriving at the hotel, show the QR Code of the previous personal data collection result to the receptionist to be scanned.

Must Wear Mask

Wherever you go, wear a mask if you don't want to be exposed to the virus or be fined according to Governor Regulation (Pergub) No 46 of 2020.

Remember Health Protocol

While traveling in Bali, always remember to comply with health protocols, especially washing your hands. No need to worry, because almost all tourist attractions in Bali have hand washing facilities and hand sanitizers available.
